The web-based SAEs are designed to simulate taking the computerized NBRC credentialing examinations. To take an examination via the Web, you must have:

1. A compatible internet browser such as the current version of Internet Explorer, Chrome, Firefox or Safari. Other browsers may or may not work.
2. Cookies and scripting must be enabled.
3. Pop-up blocking must be disabled.

After your order is placed, you will receive a confirmation e-mail with specific instructions guiding you through the examination process. The e-mail contains your private password that allows you to receive individualized feedback on your performance. You will have 90 days from the time you receive your confirmation e-mail to complete the examination.

Click here to order online: http://store.lxr.com/dept.aspx?id=34

If you purchase a web-based NBRC SAE, your credit card statement will reflect a purchase from LXR, not the NBRC or AMP.
