Secure Comprehensive Therapist Multiple-Choice Self-Assessment Examination

This Comprehensive Self-Assessment Examination (SAE) contains 140-questions and matches the item content and complexity specifications for the NBRC's Certification Examination for Entry Level Respiratory Therapists. Program directors can access special online group summary reports detailing their students' performance in comparison to all who have taken the examination to date. The summary reports can be accessed at any time to track students progress.

The Comprehensive SAEs are only intended to be used in a secure, proctored environment and can only be purchased and used by accredited respiratory care education programs. As the program director/instructor, your e-mail address is REQUIRED and all correspondence regarding your web test order will be sent only to you. You will receive a confirmation e-mail for each student that includes the student's name, the scheduled examination, a unique ID number and password for the student to access the examination, a link to the examination logon page and instructions on how to access the examination.

Upon completion of the Comprehensive SAE, the student is not provided the opportunity to review results online. Instead, the individual student results are sent to the program director/instructor's e-mail address.

NOTE: Volume discounts are available at the time of purchase, if requested and taken, when ordering 10 or more of the same SAE. See the table showing discount pricing below.
