

# Asthma Educator Specialist (AE-C)

## Continuing Education Information

For AE-C recertification, continuing education requires that CEUs be in content areas applicable to asthma education. See the detailed content outline online at [nbrc.org](http://nbrc.org).

Continuing education must be approved by a provider on the Recognized Provider list below, accredited and approved education institutions, or State Boards of Nursing.

- Accreditation Council for Continuing Medical Education (ACCME) Accredited or Approved Providers
- Accreditation Council for Pharmacy Education (ACPE) Accredited or Approved Providers
- American Academy of Family Physicians (AAFP)
- American Academy of Pediatrics
- American Academy of Physician Assistants (AAPA)
- American Association of Nurse Practitioners (AANP)
- American Association of Respiratory Care (AARC) and respiratory care organizations granting Continuing Respiratory Care Education (CRCE) credits
- American College of Sports Medicine (ACSM)
- American Lung Association (ALA)
- American Medical Association (AMA)
- American Nurses Association (ANA)
- American Nurses Credentialing Center (ANCC) Accredited or Approved Providers
- American Occupational Therapy Association (AOTA)
- American Physical Therapy Association (APTA)
- American Psychological Association (APA)
- Association of Asthma Educators
- Asthma and Allergy Foundation of America (AAFA)
- Council on Continuing Medical Education (CCME-AOA) Approved Sponsors / American Osteopathic Association (AOA)
- National Association of Clinical Nurse Specialists (NACNS)
- National Association of Pediatric Nurse Practitioners (NAPNAP)
- National Association of Social Workers (NASW)

Continuing education activities (but not academic credit-granting courses) provided through accredited academic institutions within the United States or its territories granting degrees related to professional practice are also accepted (e.g., continuing education activity provided by an accredited academic institution's School of Nursing, Nutrition, Social Work, Medicine, Pharmacy, etc.). Several state boards of licensure require AE-C continuing education for renewal of licensure. Acceptance by a state board of licensure does not guarantee that a continuing education program meets NBRC's criteria. The state board of licensure **MUST** be accredited or approved by one of the recognized provider(s) for an activity to be considered for renewal of certification.
